

## **Installing the Martin Audio Control Manager software (MS Windows)**

Clicking [HERE](#) takes you to a zip folder containing the installer software. Extract the contents to a suitable place on your pc – your desktop is a good place as the setup file may be deleted once you have installed the wizard.

Do not run the programme from the zip folder.

Run ***MAControlManager\_2.2.23\_Setup.exe*** and follow any on-screen instructions.
